

## Enhancements 2005-2010

We are excited to share the many enhancements and new developments of the Ojo Caliente Mineral Springs Resort & Spa facility. Our goal is to improve the Ojo experience while honoring its essence, charm and history; with the ongoing goal of stewardship for sustainability.

### NEW WINE BAR & LOUNGE

Adjacent to the Artesian Restaurant located in the Historic Hotel is the new Wine Bar & Lounge. It provides a charming and relaxed environment serving a fine selection of local and imported wine and beer and enticing Bar Menu.

### NEW SPA ENTRANCE & GIFT SHOP

The new entrance to our healing waters offers our guests an expansive front desk and lobby, women's changing room, gift shop featuring SUNDARI and Zents products, and 4 new spa treatment rooms.

### LODGING ENHANCEMENTS:

- **12 New Cliffside and Pueblo Suites:** Overlooking a beautiful plaza, are two new traditional, pueblo-style buildings housing 12 enchanting suites. Each suite is 500 sf with beautiful wax plaster finishes, a kiva fireplace, and viga ceilings. The 6 Cliffside Suites have their own private, outdoor, 2-person soaking tub. The 6 Pueblo Suites have a private patio overlooking an enchanting courtyard.
- **11 New Plaza Cottages:** Replacing the circa 1930s South Cottages are now 11 Plaza Cottages that were completed in 2008. Adjacent to the new Pueblo Suites, these cottages overlook the beautiful plaza and are decorated with lovely New Mexican furnishings plus a kitchenette that includes a small refrigerator and microwave.
- **8 Restored North Cottages:** In 2006, we finished the complete restoration of the North Cottages. Most notably, each has a spacious plaster and tile shower, as well as hardwood floors, and fun, eclectic furnishings and finishes.

### PRIVATE OUTDOOR POOLS

We've created the perfect environment for those yearning to bathe under big blue skies by day, or on a stunning starlit night. Escape to one of our three secluded and private outdoor pools complete with kiva fireplaces and create your own Ojo experience. Reservations are recommended.

### SPA LOUNGE AND 4 NEW TREATMENT ROOMS

Located in the Historic Bathhouse is the new Spa Lounge where guests will relax in a quiet and comfortable setting before being greeted by a massage therapist for their treatment. This building has 4 new and spacious treatment rooms.

### NEW HIKING & MOUNTAIN BIKING TRAILS

We've recently mapped over 12 miles of single-track mountain biking trails on the mesa top with accompanying trail map. Additionally we've created a delightful 2 mile Bosque River Loop that includes a bridge connecting you to the Rio Ojo Caliente and over 1100 acres of lush river landscape. Beginning in Spring 2010, indulge your inner child with a beach cruiser bike ride around the loop.

### WATERS SHINE WITH NEW IMPROVEMENTS

We're proud to announce the completion of our new filtration system utilizing ozone and UV light to maintain the natural integrity of our healing waters without adding any chlorine or other chemicals. Guests can now enjoy new waterfall features, particularly in the Iron and Cliffside pools.

### GEOTHERMAL HEATING & COOLING

As part of our commitment to the environment we have converted all facilities to geothermal heating and cooling. This process is accomplished by harnessing the earth's energy via our most precious resource: hot water.

### WASTEWATER TREATMENT PLANT

In an effort to recharge the local aquifer with high quality treated water we have created our own on-site wastewater treatment facility. We treat the water before re-injecting it into the aquifer which controls evaporation and groundwater contamination.
